

# OGEDI FAVOUR UCHIBEKE

**Full-Stack Software Engineer** Remote (Nigeria) .Open to Global Remote Roles

 [ogedifavour2@gmail.com](mailto:ogedifavour2@gmail.com) ·  [LinkedIn](#) ·  [GitHub](#) ·  [Portfolio](#)

---

## \*\*SUMMARY

Full-Stack Software Engineer with **4+ years of experience building scalable, high-performance web and backend systems** used by distributed teams across **Canada, India, and Nigeria**. Strong expertise in **Node.js, TypeScript, React/Next.js, and cloud-native backend architectures**. Proven ability to improve system performance, reduce operational overhead, and deliver reliable production systems using **Docker, Kubernetes, AWS/Azure, and modern DevOps practices**. Comfortable owning features end-to-end—from system design and API development to deployment, monitoring, and optimization.

---

## CORE TECHNICAL SKILLS

### Frontend

- React, Next.js, TypeScript, TailwindCSS

### Backend & API Development

- Node.js, Fastify, Express.js, NestJS
- RESTful APIs, GraphQL
- WebSockets & real-time systems
- Authentication & Authorization (JWT, RBAC)

### Databases, Caching & Search

- PostgreSQL, MySQL
- MongoDB
- Redis (caching, queues)
- Elasticsearch, Firebase

## Cloud, DevOps & Infrastructure

- AWS, Azure
- Docker, Kubernetes
- NGINX (reverse proxy, load balancing)
- CI/CD (GitHub Actions)

## Observability & Reliability

- Prometheus, Grafana, Loki
- Centralized logging & metrics
- Performance monitoring & optimization

## Testing & Tooling

- Jest, Mocha
- API & integration testing
- Background jobs & queues (BullMQ)

---

## PROFESSIONAL EXPERIENCE

### Full-Stack Engineer – Chimoney (Techstars '23)

*Remote – Canada / Aug 2024 – Dec 2025*

- Led the design and release of **API v0.2.4**, introducing cleaner service boundaries and architecture improvements that **reduced debugging time by ~30%** and improved build pipeline speed.
- Built scalable backend services supporting **internationalization and multi-region usage**, enabling smooth global expansion.
- Improved application performance and SEO by **~30%** through backend caching strategies, asset optimization, and architectural refinements.
- Collaborated closely with product, design, and engineering teams to deliver features in a fast-paced startup environment while maintaining backend reliability and code quality.

## **Backend Engineer – Airepro Solution Pvt Ltd**

*Remote – India | Jul 2023 – Aug 2024*

- Containerized backend services using **Docker** and deployed them across **Kubernetes clusters**, improving scalability and fault tolerance.
- Configured **NGINX load balancing** to handle peak traffic with minimal downtime.
- Built **centralized logging and monitoring** using Elasticsearch, Grafana, and Loki, reducing debugging cycles by **~40%**.
- Automated backend workflows using cron jobs and background workers, significantly reducing manual operational overhead.

## **Backend Developer – Outcess Solution Nigeria Ltd**

*Nigeria | Feb 2022 – Nov 2022*

- Developed and optimized **RESTful APIs** for a large CRM platform, improving data flow and system performance.
- Introduced **Redis caching**, reducing API latency by **~60%** and improving response consistency.
- Resolved **90% of critical user-reported issues within 24 hours**, improving system stability and customer satisfaction.
- Built backend integrations and automation workflows that streamlined internal business operations.

## PROJECTS

### TaskCollab – Real-Time Collaboration Platform

 [taskcollab-app.vercel.app](https://taskcollab-app.vercel.app)

Full-stack task management platform with real-time collaboration and AI-powered automation.

- Implemented **real-time collaboration** using WebSockets and Socket.IO.
- Built background processing pipelines using **Redis + BullMQ** for async task handling.
- Developed an **AI-driven task extraction system** that parses documents and auto-assigns tasks.
- Stack: **Next.js, Node.js, TypeScript, Redis, BullMQ**
- Deployed with scalability and performance optimization in mind.

---

## EDUCATION & CERTIFICATIONS

**B.Agric**, Rivers State University – Nigeria (2023)

**Full-Stack Web Development Program**, Loctech Training Institute (2022)

**Data Structures & Algorithms Certification**, LeetCode/Udemy (2024)
